#### Textbooks

- **Luu, B., Kayingo, G., & Hass, V. M. (2022).** *Advanced Pharmacology for Prescribers*. Springer Publishing Company, LLC.
- **Rogers, J. (2023).** *McCance & Huether's Pathophysiology: The Biologic Basis for Disease in Adults and Children* (9th ed.). Mosby.

---

#### Module Description

The final module of the RN Prescriber Internship focuses on **mastery-level application** of prescribing and independent clinical decision-making. Topics include:

- **Managing acute and emergency cases** in Family Medicine.
- **Handling ethical dilemmas and professional accountability** in prescribing.
- **Interdisciplinary collaboration** in complex patient care.
- **Using data-driven approaches** for treatment planning.

---

#### Learning Objectives

Upon completion, participants will:

- **Function independently** as RN Prescribers in a primary care setting.
  - **Demonstrate advanced decision-making** in prescribing and medication management.
  - **Manage emergency situations**, including adverse drug reactions.
  - **Integrate quality improvement strategies** into prescribing practices.
-

## Assessment

Participants must:

- **Complete an independent prescribing project** with a real patient case.
  - **Pass an OSCE-style practical exam** on prescribing.
  - **Achieve a minimum score of 80%** in final assessments.
- 

## Instructional Activities

- **Independent prescribing clinics** with real patient interactions.
  - **Critical reflection** sessions with mentors.
  - **Multidisciplinary case reviews** for feedback.
- 

## Course Outline

Chapter #	Chapter Name	Objectives	Contents	Delivery Method	Assessment
1	Mastering Independent Practice	Transition from supervised to independent prescribing	Clinical autonomy, decision-making	Self-directed & Supervised Practice	Supervisor evaluation
2	Emergency & Acute Care Prescribing	Manage urgent medication-related issues	Anaphylaxis, acute pain, sepsis	Simulation & Case Reviews	OSCE exam
3	Ethical & Professional Issues	Navigate complex ethical challenges	Informed consent, duty of care	Seminar & Peer Discussion	Ethics case study
4	Advanced Prescribing Audit	Evaluate real-world prescribing impact	Audit methodologies, data analysis	Independent Project	Final Report & Supervisor Review
